YEARSTAR

Help People Return To Easier Life

OVER 60,000 m²
FACTORY AREA

COMPANY PROFILE

YEARSTAR has over 800 employees worldwide with a total investment of US \$29.5 million.

The company specializes in the manufacturing and sales of medical textiles products, safe patient handling products, patient transfer products, incontinence products, emergency products, etc,. It provides import and export of services, fitness services of rehabilitation , technical services of medical institutions, overall scheme of patient transfer of medical institutions, and technical development of medical institutions.

With the strong support of professional team, rigorous management and advanced equipment, YEARSTAR has the confidence to develop good social image aiming to create products with outstanding quality.

Mission

To enhance patient and caregiver experience with people-oriented, cost-effective, innovative and reliable healthcare products and solutions.

Vision

Be a driver of the industry revolution with innovation and technology.

Value

Integrity: We value personal integrity and insist on honesty and responsibility to be the foundation of our business.

Customer focus: We listen to customers, consider from their standpoint and offer what they really need.

Determination: We set high goals, devote ourselves, grow and exceed the goals in falling and climbing.

Transfer Solutions

Reusable Air Transfer Mattress

YR-TR8

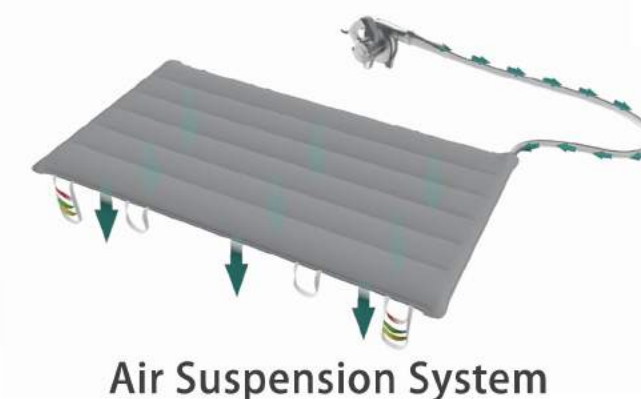

Advantages:

1. The mattress forms a suspension system and requires only 15%-25% effort in moving the patient.
2. Reduce the risk of back strains of the nursing staff with extended handles, and the patient can be moved easily.
3. It is breathable to bring patient comfort and can help maintain skin healthy.
4. It's safer to transfer patient with full-body support and off-center cradling technology.
5. It is convenient for caregivers to operate during a lateral transfer from multiple angles.

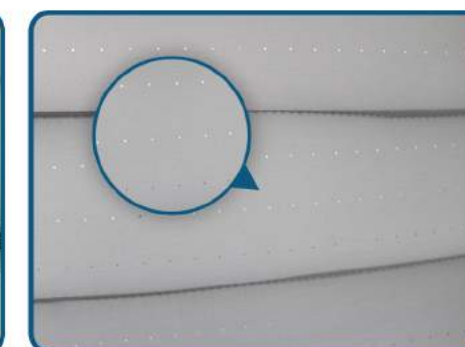

Specifications:

Capacity	1200 lbs
Size	40"*80"
Material	Nylon
Straps And Treads	Polypropylene

Product Details:

YR-TR60 Single-Use Air Transfer Mattress

Advantages:

1. It provides an effective solution for reducing the physical effort and injury risk associated with performing lateral transfers.
2. The air mattress minimises friction when transferring and repositioning the patient, resulting in a smooth transfer for both the patient and caregiver.

Specifications:

Color	White
Weight Capacity	1200lbs
Size	34"*78"/39*78"/50*78"
Body Material	Nylon With Double Coated, Medical Nonwoven Textile

Washable Air Transfer Mattress YR-TR53

Advantages:

1. While inflated, the mattress forms a floating system and requires only 15%-25% effort in moving the patient, which effectively improves the staff efficiency and reduces the risk of caregiver and patient injury.
2. Made of special washable material, the air transfer mattress won't fade or lose weight capacity after washing.

Specifications:

Color	Silver Grey
Weight Capacity	1200lbs
Size	34"*78"/39*78"/50*78"
Body Material	Nylon With Double Coated

YR-TR68 Single-Use Air Transfer Mattress

Advantages:

1. The antibacterial material reduces the risk of skin infection and wound irritation.
2. While inflated, the mattress forms a floating system and requires only 15%-25% effort in moving the patient, which effectively improves the staff efficiency and reduces the risk of caregiver and patient injury.

Specifications:

Color	White
Weight Capacity	1200lbs
Size	34"*78"/39*78"/50*78"
Body Material	Nylon With Double Coated, Medical Nonwoven Textile

Washable Air Transfer Mattress YR-TR50

Advantages:

1. It is made of breathable and antibacterial fabric, which reduces the chance of skin infection and wound irritation.
2. The mattress forms a floating system when inflated and saves 75%-85% effort in lateral transfers.
3. It won't fade or lose weight capacity after washing.

Specifications:

Color	Navy Blue
Weight Capacity	1200lbs
Size	34"*78"/39*78"/50*78"
Body Material	Nylon With Double Coated

Advantages:

- 1. Exquisite design brings ultimate comfort and convenience.
- 2. Strong capability contributes to great possibility.
- 3. Multiple protections make operation safer.
- 4. Compatible with a variety of slings.

Specifications:

Max Load Capacity	450lbs	450lbs	450lbs
Product Size	47"*24"*48"	47"*25"*52"	47"*24"*48"

Max speed at full load	0.26 inch/s	0.26inch/s	—
Motor	DC24V/8000N	DC24V/8000N	—
Noise	65dB(A)	65dB(A)	—

Product Details:

Advantages:

- 1. Made of premium quality polyester fabric, Mesh lift sling has the advantage of machine washable and reusable, can be used in both wet and dry environments.
- 2. Mesh lift sling has the strong and durable structure. It has a weight capacity of up to 600 lbs, making it great for bariatric and regular use.
- 3. It is machine washable and dries quickly, making cleaning easier.

Specifications:

Capacity	600lbs
Size	34"*41.5"
Body Material	100% Polyester
Straps And Treads	100% PP

Product Details:

YR-TR62

Solid Padded Full Body Sling

Advantages:

1. With multiple loops in the straps, the lift heights and patient positions can be adjusted according to different needs.
2. The reinforced hookup points are extra sturdy and work with different patient lifts.
3. The sling provides full body support which is safer and more comfortable.

Specifications:

Color	Blue And Any Color Required
Weight Capacity	450lbs
Size	45"*21"
Body Material	Polyester

YR-TR63

Toileting Sling

Advantages:

1. The straps are adjustable with multiple loops and allow different patient positions according to the needs.
2. The waist belt with buckle provides extra support to the upper body.
3. The wide opening allows easy removal of the patient's clothes for toileting.

Specifications:

Color	Blue And Any Color Required
Weight Capacity	450lbs
Size	40"*33"
Body Material	Polyester

Disposable High Back Sling

YR-TR52

Advantages:

1. The two padded "legs" of the sling are comfortable to be placed underneath the thighs and reduce the risk of skin irritation.
2. Equipped with alternative loops, the six reinforced straps make the sling adaptable to most competitive floor style patient lifts.

Specifications:

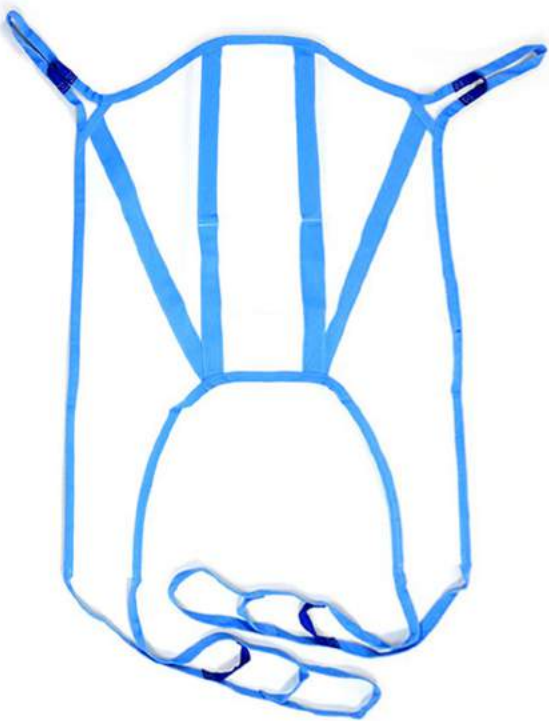

Color	White And Green
Weight Capacity	450lbs
Size	39"*45"
Body Material	PP

Disposable Full Back Sling

YR-TR53

Advantages:

1. The two padded "legs" of the sling are comfortable to be placed underneath the thighs and reduce the risk of skin irritation.
2. The back of the sling is made extra high to support whole back. The two plexiglass bars offer extra weight support and higher safety.

Specifications:

Color	White And Blue
Weight Capacity	450lbs
Size	39"*45"
Body Material	PP, PE

Full Body Head Support Sling

Advantages:

- 1. Made of premium quality fabric, the lift sling is strong and durable, can be used in both wet and dry environments.
- 2. The Sling is breathable foam padded for extra softness, making it comfortable to stay on the sling for long time.
- 3. With four reinforced sling straps attached, it is adaptable to most situations and works with most competitive floor style patient lifts.

Specifications:

Color	Black
Capacity	600lbs
Size	36"*4", 48"*4", 60"*4"
Body Material	Mesh fabric, polyester

Product Details:

Breathable Full Body Head Support Sling

Advantages:

- 1. Made of premium quality mesh fabric, the lift sling is strong and durable, can be used in both wet and dry environments.
- 2. The Sling is breathable foam padded for extra softness, making it comfortable to stay on the sling for long time.
- 3. With four reinforced sling straps attached, it is adaptable to most situations and works with most competitive floor style patient lifts.

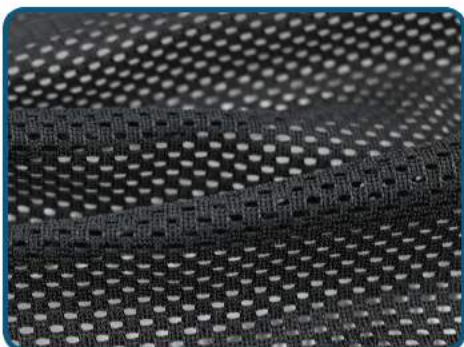

Specifications:

Color	Black
Capacity	600lbs
Size	36"*4", 48"*4", 60"*4"
Body Material	Mesh fabric, polyester

Product Details:

YR-TR10

Universal Lift Sling

Advantages:

1. Made of premium quality nylon fabric, the lift sling is strong and durable, can be used in both wet and dry environments.
2. The sling is breathable foam padded for extra softness, making it comfortable to stay on the sling for long time.
3. With four reinforced sling straps attached, it is adaptable to most situations and works with most competitive floor style patient lifts.

Specifications:

Positioning Sling

YR-TR17

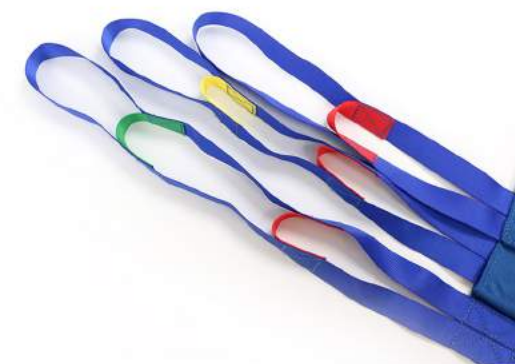

Advantages:

1. The transfer sling has large size 39"*78", able to wrap patient's whole body when transferring.
2. The sling has ten handles, each equipped with three extra loops, allowing caregivers to reposition the patient easily from different angles.

Specifications:

Color	Blue or customized
Size	39"*78"
Body Material	Polyester Or Nylon
Weight Capacity	1000lbs

Product Details:

Advantages:

- 1. The sling is breathable foam padded for extra softness, making it comfort to stay on the sling for long time.
- 2. The four straps, each equipped with extra loops, allow caregivers to reposition the patient easily.
- 3. The anti-slide silicon material on the back touched area and the safety belt with buckle provide extra safety during transferring.

Specifications:

Color	Grey or customized
Size	39"*14"
Material	Polyester
Weight Capacity	605lbs
Item weight	1470g

Product Details:

Advantages:

- 1. Made of special fabric and high strength straps, it is soft and breathable for patients to use and it is washable.
- 2. Equipped with extra head support and quilted cushioning foam at leg section, it provides users with more comfortable experience.
- 3. Designed with the back handles, it is safer for caregiver to adjust the position of patients easily.

Specifications:

Color	Grey or customized
Size	40"*61.4"
Material	Polyester and High strength sponge
Weight Capacity	770lbs
Item weight	1500g

Product Details:

YR-TR58

U-Sling With Head Support

Advantages:

- 1. With multiple hanging loops in the straps, the lift heights and patient positions can be adjusted according to different needs.
- 2. The sling provides head to knee support and can easily be removed or applied to a patient in a seated or supine position.

Specifications:

Color	Green And Any Color Required
Weight Capacity	600lbs
Size	48"*35"
Body Material	Polyester Fabric

YR-TR59

Solid Sling With Head Support

Advantages:

- 1. The handles on the back help adjust the patient position during transfers.
- 2. With multiple loops in the straps, the lift heights and patient positions can be adjusted according to different needs.
- 3. The large opening allows easy access to toileting.

Specifications:

Color	Grey And Any Color Required
Weight Capacity	600lbs

Advantages:

- 1.The transfer sheet is equipped with 8 heavy-duty handles, it will help the caregivers to assist from different angles.
- 2. Made of double-sided nylon fabric, it is strong and durable to transfer patients within safe weight capacity.
- 3. Made of lightweight nylon, it is breathable and soft to touch, which provides comfortable using experience.

Specifications:

Color	Navy Blue Or Customized
Size	43"*36"
Material	Nylon
Fabric weight	120g
Weight Capacity	1000lbs

Product Details:

Advantages:

- 1. The transfer sheet is equipped with 20 heavy-duty handles, which will help caregivers to handle patient from different angles easily.
- 2. Made of double-sided nylon fabric, it is strong and durable to transfer patients within safe weight capacity.
- 3. The slick fabric on the bottom helps reduce the efforts needed during transferring and positioning.

Specifications:

Color	Green or customized
Size	36.6"*44.5"
Material	Polyester, Nylon
Weight Capacity	600lbs
Item weight	280g

Product Details:

Advantages:

- 1. The fabric is water-repellent and anti-fire, and our unique stretcher fabric is woven with a mesh weave, so it can be used continuously with good drainage.
- 2. You can move from bedding to bathtub as it is.
- 3. In an emergency, it can be used as a first-aid stretcher.

Specifications:

Color	Yellow Or Customized
Size	180"*54"
Material	Waterproof nylon and anti-fir oxford fabric with coating
Loading Capacity	600lbs

Product Details:

Advantages:

- 1. The fabric is water-repellent and anti-fire, and our unique stretcher fabric is woven with a mesh weave, so it can be used continuously with good drainage.
- 2. You can move from bedding to bathtub as it is.
- 3. In an emergency, it can be used as a first-aid stretcher.

Specifications:

Color	White or customized
Size	220*90cm
Material	PVC
Weight Capacity	600lbs
Thickness	0.2mm

Product Details:

Advantages:

- 1. A portable stretcher has the advantages of simple structure and practicality, and it is the first choice to transport, transfer or rescue patients from areas inaccessible to stretchers.
- 2. It can be used to transfer the patient from the EMS stretcher to the hospital bed after transport.
- 3. It can also be used to transfer wildlife and used as an outdoor mattress.

Specifications:

Open Size	71"*30"
Folded Size	11"*19.5"
Body Material	100% Polyester
Straps And Treads	PP and rubber
Unit weight	825g

Product Details:

Advantages:

- 1. Foam wrapped handles prevent the hand straps from cutting hands.
- 2. Shoulder force is applied to disperse the force of the handle, making it easier to go up and down stairs.
- 3. Placed in the leg socket to prevent the patient's legs from being strangled during transportation.
- 4. The middle layer is filled with sponge to make moderate hardness.

Specifications:

Color	Black or customized
Size	17.3"*19"*16.7"
Material	Polyester,cotton and PVC
Weight Capacity	220lbs
Item weight	916g

YR-TR11

Tubular Slide Sheet

Advantages:

1. The slide sheet has smooth surface and can reduce the friction between the patient and bed.
2. It assists to turn the body easily when helping patients wipe the body and relax the muscles.

Specifications:

Color	Red Blue Or Customized
Size	58"*28"
Material	100% Polyester / 100% Nylon
Fabric weight	60gsm

YR-TR66

Padding Patient Slide Sheet

Advantages:

1. The two layer tubular design enables patients to slide on the sheet freely without folding.
2. With the ultra low friction, it's easy and effortless to transfer, turn and reposition a patient with the help of only one or two caregivers and reduces the risks of caregiver musculoskeletal injuries.

Specifications:

Color	Blue And Any Color Required
Weight Capacity	650lbs
Size	24"*55"
Body Material	Polyester

Patient Transfer Board

YR-TR18

Advantages:

1. Patient Transfer Slide is a rolling board designed to transfer patients easily, helping to reduce work-related injuries for caregivers.
2. Made of Nylon, Aluminum and PC, the patient transfer board is light but durable and foldable, allowing it to be stored and carried easily.
3. A single caregiver is able to transfer a patient with the slide board. It reduces the risks of hurting patients during transfers.

Specifications:

Color	Blue Or Customized
Size	66"*17"
Material	PC, nylon, Aluminum Plastic Board
Unit weight	2000g
Weight Capacity	350lbs

Product Details:

YR-TR15

Disposable Transfer Sheet

Advantages:

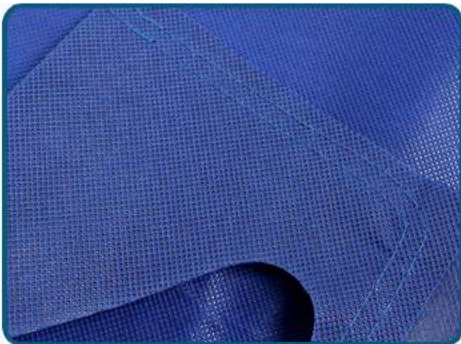

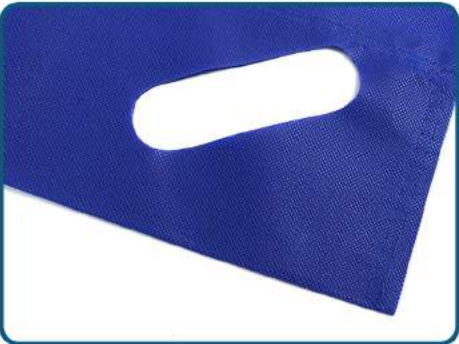

- 1. It is light but durable, offering enough space for different sizes' bodies.
- 2. With 12 handles attached around the sheet, it is safe for caregivers to operate from different angles.
- 3. It's safer to transfer patient with full-body support and off-center cradling technology.
- 4. The non woven fabric is breathable and brings away extra body heat when staying on it for long time.

Specifications:

Color	Royal Blue Or Customized
Size	33*76/43*76
Material	PP Non-Woven
Item Weight	120g

Product Details:

Patient Transfer Pad

YR-TR19

Advantages:

- 1. Made of premium quality Polyester fabric, the transfer pad is strong and durable.
- 2. The wrapped handles offers comfortable and ergonomic grips for caregivers.
- 3. It is thickly padded, which provides extra comfort for patients.

Specifications:

Color	Blue or customized
Size	42.5"*27"
Material	Polyester fabric
Weight Capacity	600lbs
Item weight	600g

Disposable Transfer Pad

YR-TR57

Advantages:

- 1. The 10 handles allow caregivers to operate from different angles and bring extra safety to patients.
- 2. This product is a combination of under-pads and transfer sheets. It brings patient comfort and bedding protection during transferring.

Specifications:

Color	Blue And White
Capacity	330lbs
Size	31.5"*75"
Material	Fluff Pulp, Non-Woven Fabric

YR-TR77

Bed Up Assist Belt

Advantages:

1. Pulling yourself to an upright position an easy, no-hassle process.With four durable, flexible, and comfortable handles.
2. Simply clip for the bed frame, and attaches it to any bed frame without tools.
3. The length of the wake-up aid strap can be adjusted in the range of 108cm-205cm

Specifications:

Color	Black
Capacity	300lbs
Length	43"- 81"
Material	Nylon

Walking And Standing Assist Aid Belt

YR-TR75

Advantages:

1. Nursing Safety Assist Device for helping a person easily and safely transfer from sitting position while minimizing user and caregiver strain or injury.
2. With 6 horizontal handles in soft webbings allow caregiver can easily adjust patients position and transfer patient.

Specifications:

Color	Black
Capacity	300lbs
Length	54"- 4"
Material	Nylon Oxford

YR-TR74

Gait Belt

Advantages:

1. Nylon reinforced handles make it more safe and enables nurses to adjust the postures of patients from.
2. Non-slip inner surface helps keep the sling from riding up during the transfer.
3. 3.Mesh fabric is breathable and comfortable to wear.

Specifications:
